SOFTWARE ENGINEER

CONTACT

03484371772

maleehanadeem777@gmail.com

Rawalpindi, Pakistan

<https://maleehanadeem.github.io/portofolio/>

SKILLS

- Programming & Scripting: C++, JavaScript, HTML5, CSS3, T-SQL (SQL Server), SQL (Oracle)
- Core Concepts: Object-Oriented Programming (OOP), Data Structures, File Handling, Software Design & Architecture (SDA/UML), Database Normalization
- Web & Backend Frameworks: Node.js, Express.js, Socket.io (WebSockets), WordPress (Customization)
- Databases: Microsoft SQL Server, Oracle Database 11g
- Tools & IDEs: VS Code, Visual Studio, Git, GitHub, CodeSandbox, Cisco Packet Tracer

LANGUAGES

- English
- Urdu (Fluent)

PROFILE

Dedicated student of Software Engineering, with hands-on knowledge of Full-Stack real time application design and implementation using Node.js/WebSockets, database modeling (SQL Server) using RDBMS, C++ object Oriented programming and strong software architecture (UML) skills. Proactive, with an eagerness to solve challenging problems using skills gained through practice.

ACADEMIC PROJECTS

Real-Time inDrive Clone (Full-Stack): Live Demo (Frontend UI) → GitHub Pages link,

Source Code → GitHub repository, **Description:** "Full-stack ride-booking system built with HTML/CSS/JavaScript, Node.js, Express, and SQL Server. The live link showcases the frontend; the backend requires a local SQL Server setup."

(https://maleehanadeem.github.io/indrive_system_1/)

Portfolio Website (<https://maleehanadeem.github.io/portofolio/>)

Landing Page: Created a responsive and user-friendly landing page with clean UI/UX design for better user engagement and conversion.

Calculator Webpage: Developed a functional calculator using JavaScript, capable of performing basic arithmetic operations with an interactive interface.

Temperature Converter Website: Built a web-based temperature converter that converts values between Celsius, Fahrenheit, and Kelvin in real-time.

WhatsApp Management System: Designed 12 UML diagrams (Class, Use Case, ERD) and developed a complete structural messaging framework in C++ using OOP.

EXPERIENCE

Full Stack Web Development Intern

Oasis Infobytes | Currently Intern

15-june-2026 to 15-july-2026

- Developed web apps using HTML, CSS, JavaScript, Node.js, and Express.js
- Built responsive UI and integrated REST APIs

Full Stack Web Development Intern

Syntent Technology | Currently Intern

15-june-2026 to 15-july-2026

- Worked on full-stack development using Node.js and Express.js
- Developed user-friendly interfaces and backend features

EDUCATION

- BS Software Engineering** present (2024-2028)
Fatima Jinnah University
CGPA: 3.61/ 4.0
- Intermediate (FSC/ ICS)** (2022-2024)
HCCS, FBISE
Marks: 917 / 1100
- Matriculation (Science)** (2020-2022)
Future Foundation School, FBISE
Marks: 984/ 1100
